

4-STEP CHECKLIST

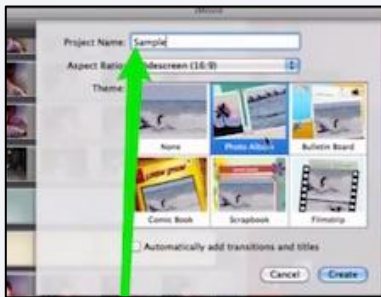

GETTING STARTED IN IMOVIE

1

NAME YOUR PROJECT AND SET THE ASPECT RATIO

Launch iMovie and start a new project by giving it a name.

Make sure to select Widescreen 16:9 ratio.

2

CHOOSE A THEME IN THE MENU

Choose a template from the “Theme” chooser to stylize your video.

OR select “None” to start from scratch.

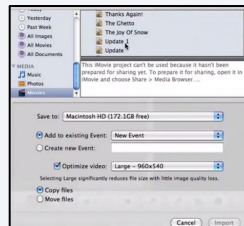

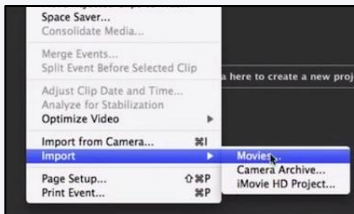

3

FILE > IMPORT MOVIES TO GET FOOTAGE INTO IMOVIE

Go up to “File” in the menu bar and select “Import” > “Movies...”

Locate your video files and “Import”

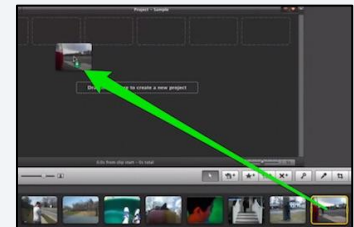

4

DRAG CLIPS INTO THE TIMELINE

Select clips you want to use in your video.

Drag and drop them into the “timeline” to add them to your final video.

5

TAKE YOUR IMOVIE SKILLS TO THE NEXT LEVEL

Learn how to perfect your movie making skills to create **INCREDIBLE** videos in iMovie.

Watch our “**HOW TO USE IMOVIE LIKE A PRO**” Video Course to learn:
